Miranda Dangerfield
Assignment: PA3 Airline Ticket
4/12/2026

Pseudo Code:

List for reserved seats
    List is false if seat is empty

Functions:

Has more first class seats:
    Checks if there are first class seats available

Has more economy seats:
    Checks if there are economy seats available

Assign first class seat

Assign economy seat

Print boarding pass:
    Conditional print statement
    Prints what seat was assigned

mainDisplay:
    Main program function
    Asks for seat choice and calls above functions
    If seat choice is 1 calls hasmorefirstclassseats and gets bool
    If seat is not reserved uses assignfirstclassseat to assign it onto the reserved seat lists
    If all of that class of seat is reserved asks user if they want the other type of seat
    Prints seat assignment output

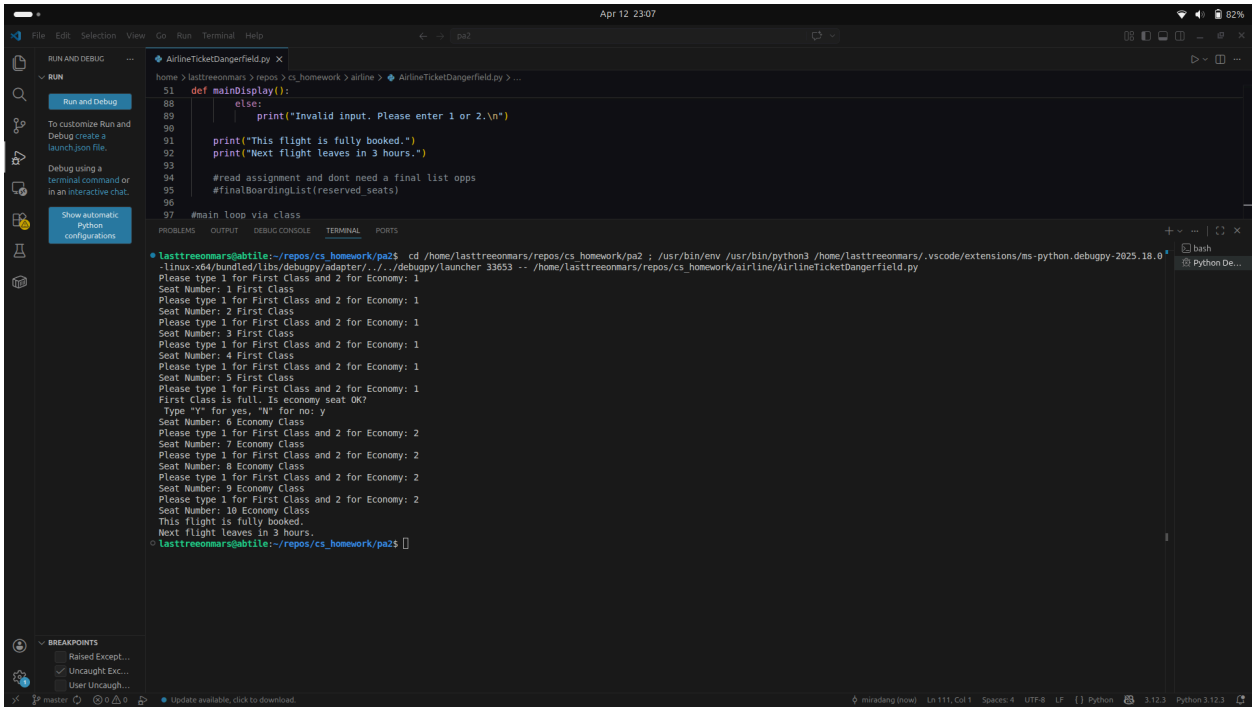
Main Loop:

Uses main class as a loop

Test Runs:

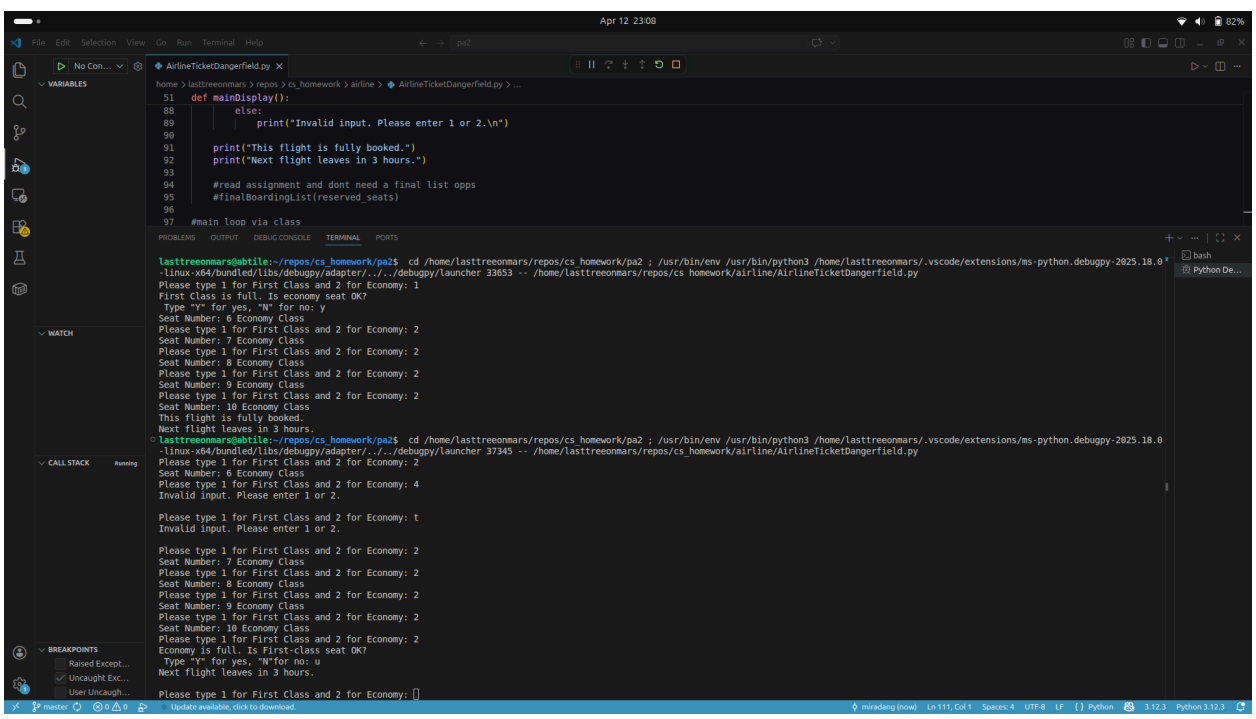
Run 1:

xxxxx



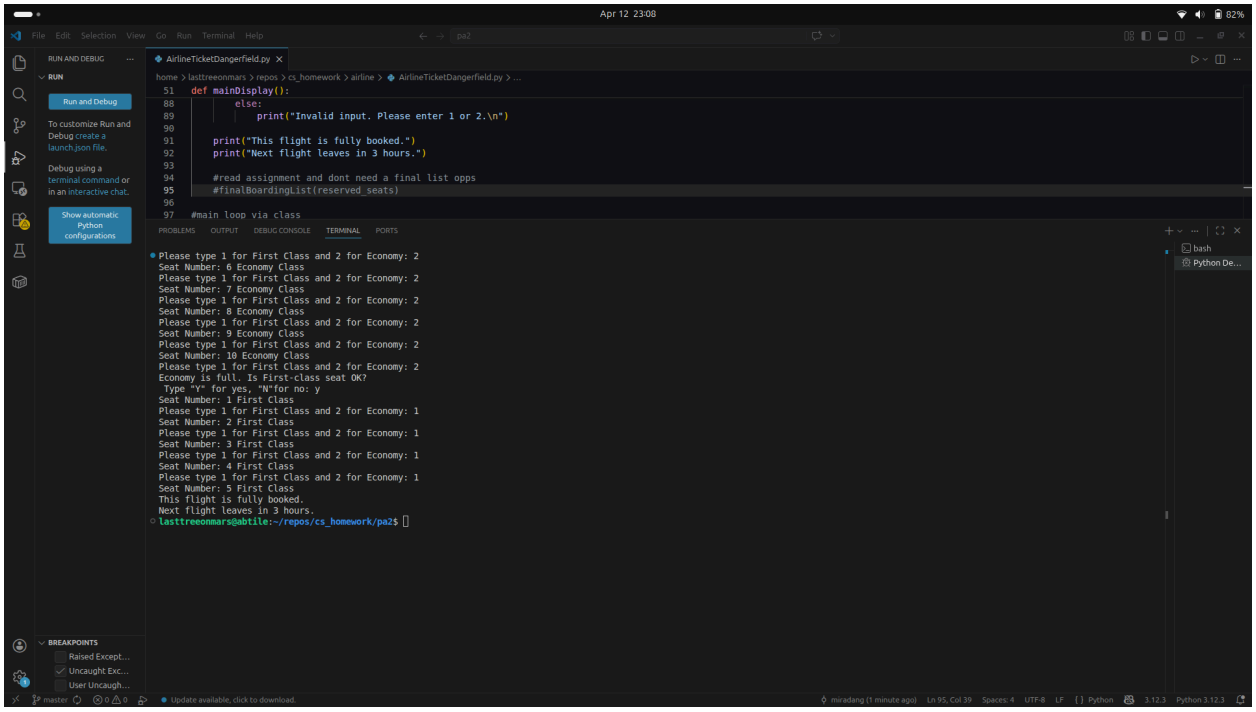
Run 2:

xxxxxx



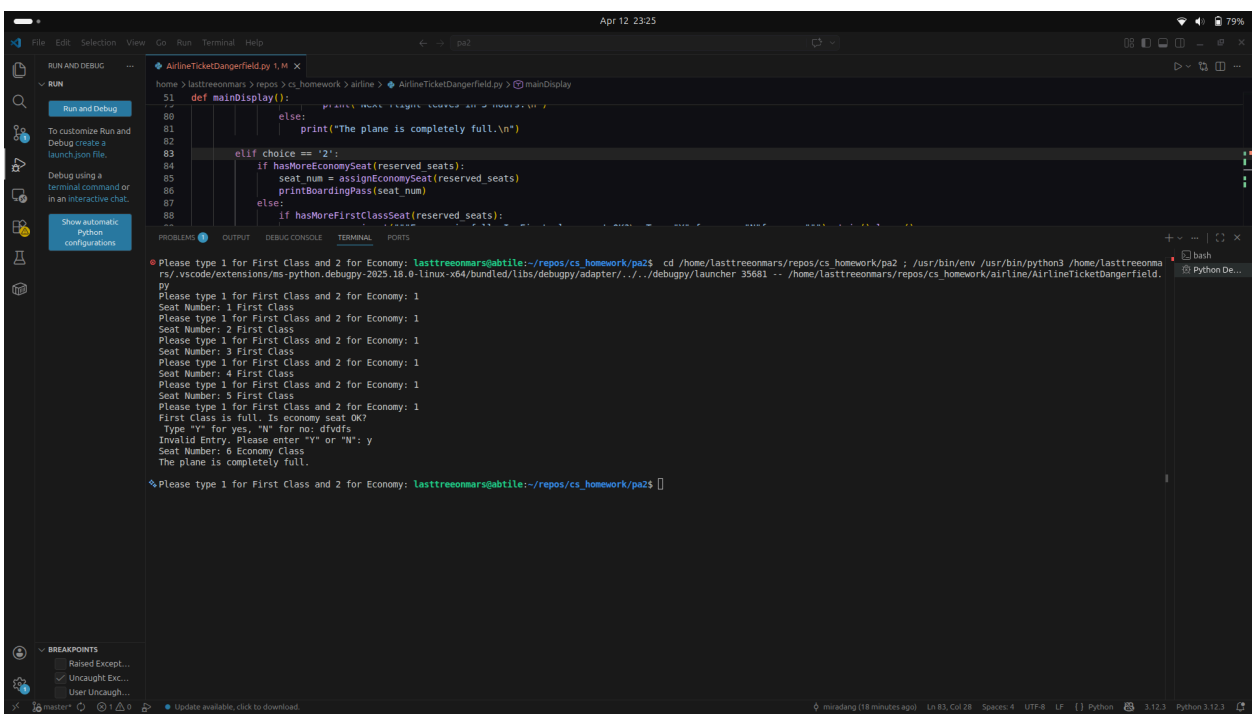
Run 3:

xxxxxx



Run 4:

xxxxxx



Run 5:

XXXXXX
